Ladies and Gentlemen of Lavaveix

You have demonstrated your confidence in us and for that we thank you.

Your Local Council, for which I have the honour of leading will commit itself to following up the existing projects currently underway. In this I will endeavour to see the job that you have entrusted to me through to the end.

In addition, I will be available (by appointment) for you at the Mayor's office. The days and times I will be available will be posted up shortly.

Jean-Louis Fauconnet

The 2014 Budget

28th April 2014 at 8pm the local council for Lavaveix les Mines was convened and a regular council meeting held, chaired by Jean Louis Fauconnet.

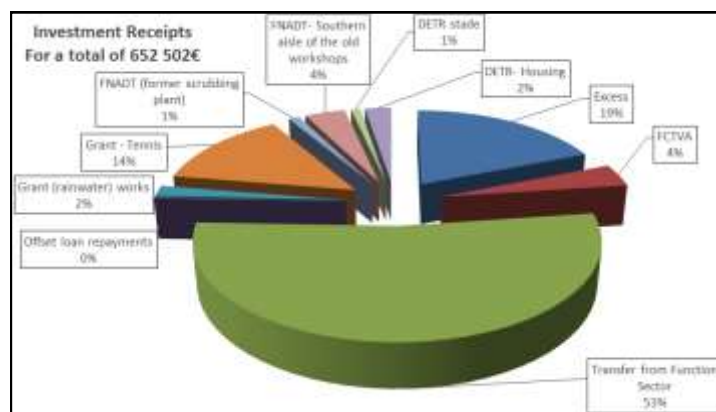

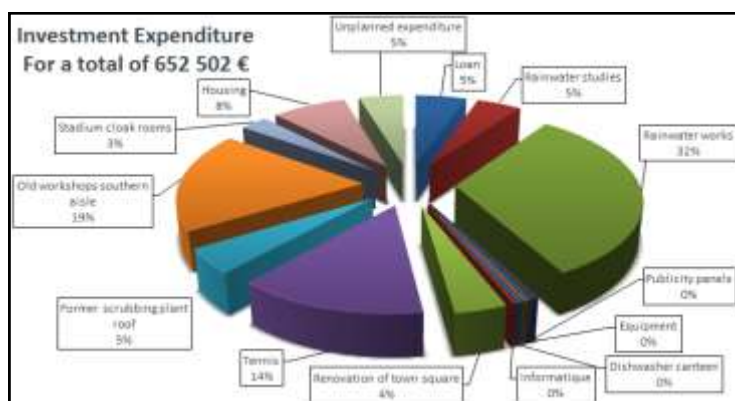

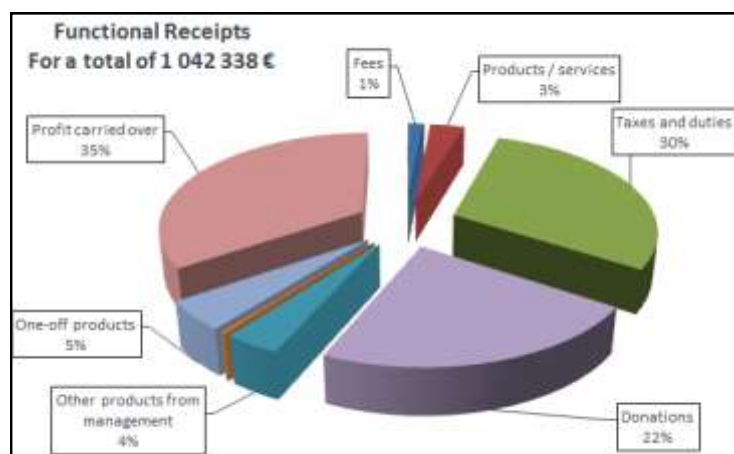

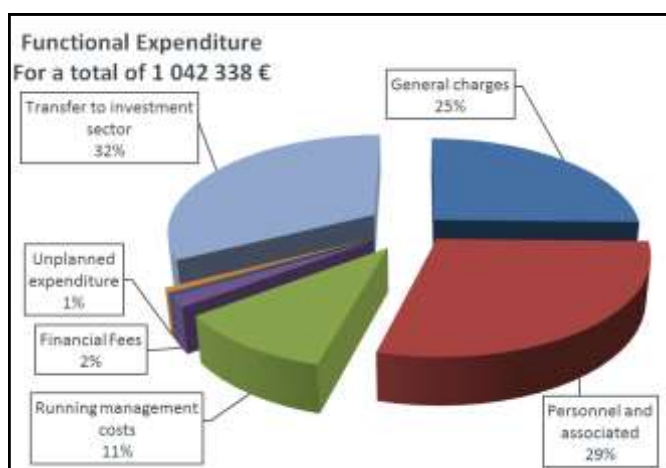

The Mayor reminded the council of the administrative accounts' figures for 2013, closed out on 17 March 2014.

<u>Functional</u>		<u>Investment</u>		<u>Total</u>	
Receipt	Expenditure	Receipt	Expenditure	Receipt	Expenditure
1 004 233,97 €	578 234,18 €	301 313,36 €	177 853,62 €	756 087,80 €	1 305 547,33 €
Excess	425 999,79 €	Excess	123 459,74 €	Excess	549 459,33 €.

The council decided not to increase the expected figure coming from direct taxation which meant :
The budgeted amount from direct taxation stands at 187 109€.

Habitation Tax	9,47%	Land Duty (constructed)	19,19 %	Land Duty (non-constructed)	58,03 %
----------------	-------	-------------------------	---------	-----------------------------	---------

The mayor invited the persons present to reflect upon the projections for the 2014 budget :

The projected budget was unanimously accepted.

Amongst the investments for 2014:

- ◇ Works on community owned buildings
- ◇ Studies on rainwater and the tennis court
- ◇ Renovation of the market square
- ◇ Upgrading housing
- ◇ Equipment purchase (canteen dishwasher, furniture)
- ◇ Water distribution lines in and around the Station section of Lavaveix

Parking ...

We have already dealt with the issues of parking in previous editions of the newsletter but still the bad habits continue (parking on pavements, on pedestrian crossings, in cycle lanes and parking half on the kerb).

Inside you will find a little reminder concerning our bad habits.

You don't want Lavaveix to have to resort to this do you?

And what about school ?

Work in the infants and juniors sections is very different but our kids are lucky to have the chance to do all this :

At junior school :

We get to do sport: cross country and inter-school sports day at Chénérailles, athletics and bike riding at Lavaveix les Mines.

We get a bit of culture: Theatre at Jean-Lurçat, cinema in Aubusson, and a conference about volcanoes at Lavaveix les Mines.

We learn about the history of France and in particular we have worked on a project about the Legion of Honour.

Of course we do a bit of grammar, spelling, geometry and maths.

And because we have worked so hard, we get to go on an end of year trip, which this year will be at Bourbon l'Archambault (03).

At infant school :

This year the theme was centred on the four elements, and therefore we had :

A show entitled "ANGA son of fire" at Chénérailles and another called "Perrine and the potter" at Lavaveix les Mines.

Painting workshops with Cynthia Dalmais. Our work will be on display during the Apro Art exhibition this summer.

The children went wandering around Lavaveix dressed as Indians for the Carnival.

And during the infant school open week, the parents were welcomed into school to participate in sports and relaxation sessions.

The school, the council and the Legion of Honour Member's Society invite you to join them on 23rd June 2014 at 5pm for an exhibition about the Legion of Honour.

All the teachers, including those that have retired and pupil's parents warmly thanked Mr Brignolas for all he had done for our school.

The Indians are in town
